## WHO WE ARE

Our history begins in 1884 with the creation of Fairfax County Medical Society by 12 physicians. In 2002, The Medical Society of Northern Virginia was established by the merger of Fairfax County Medical Society and the Alexandria Medical Society. Later in 2012, the Loudoun County Medical Society joined MSNVA.

Our long-standing history is a testament to the strength and determination of community physicians around the area. MSNVA has and will continue to fight and advocate for independent community physicians.
